

Transistor Substitutes

The following list does not include Pete Stark's recommendations. (contained in his TECH NOTES column #2). Unless otherwise indicated - all substitutes listed were furnished by George Nichols of Australia.

NOTE: Ray DeVault (Devtronix) has warned that substitutes may not function properly in some circuits (where a Beta of 100 @1ma is required).

046127 - Radio Shack 276-2007
046127 (From John Morrissey * O.N. #2) - 2N404
045000/421000 (from Walt Arnoldi * O.N. #10) - 2N3906
045500/421250 - 2N3904
045500 (From Conrad Helber * O.N. #2) - 2N3904
042147 - 2N2147 042148 - 2N2148
04277 - 2N277
042102/004100 - 2N2102
